

Policy on Quality and Environment

Founded in 1987, Polykar Inc. is a family enterprise that has become one of the leading manufacturers of industrial, commercial and institutional garbage bags and food packaging in Canada. Polykar strives to satisfy the needs of its clients while preventing any pollution associated with its operations.

As a case in point, Polykar maintains a management system certified by ISO 9001 and ISO 14001 with the intention to ensure continual performance improvements for all 5 business units:

- Waste Management Solutions
- Food Packaging Solutions
- Polyethylene Film
- Custom Bags on a Roll
- Recycling Services

In addition to respecting all legal and other applicable requirements, Polykar is constantly searching for innovative ways to reduce the environmental impacts of its products, activities and services, all while providing high quality products.
