

**POLYETHYLENE
FILMS ENGINEERED
FOR A CIRCULAR
FUTURE**

YOUR SUCCESS, OUR COMMITMENT.

TRANSFORMING PLASTICS INTO NEW OPPORTUNITIES

At **Polykar**, eco-leadership fuels our **innovation**, giving plastics a second life.

We go beyond products to help you empower change & lead your industry towards a **sustainable** future.

Bread & Produce Film
High gloss and clarity tailored for high-speed machines.

Lamination Film
Broad sealing window and superior hot tack for lamination.

Heavy Duty Film
Balance of strength and rigidity, ideal for VFFS and HFFS machines.

Boutique Film
Luxe texture, puncture resistant, excellent rigidity.

Courier Film
Gloss or matt finish, high opacity, puncture resistant.

Ice Film
High clarity, puncture & tear-resistant, broad sealing window.

Freezer Film
Superior low-temperature properties, excellent sealing.

Utility & Industrial Film
Cost-effective, suitable for diverse applications.

EMPOWER

CHANGE

LEADING WITH PURPOSE ADVANCING WITH **CHANGE**

Driving **sustainability** forward, our PE films feature up to 30% **recycled** content, with select options crafted from 100% recycled material—pioneering **innovation** every step of the way.

NEW OPPORTUNITIES LEAD TO INNOVATION

Welcome to the Polykar Centre of Innovation & **Technology** in Montreal. Here we drive **cutting-edge R&D**, sustainability, and quality. Experience innovation redefined.

INNOVATION

LEADING THE WAY IN RECYCLED POLYETHYLENE (PE) INTEGRATION

Over 2 million pounds of polyethylene film recycled monthly. **Reinvented. Repurposed. Redefined.** We are experts in Post-Industrial, Post-Commercial, and Post-Consumer solutions.
